COMPUTER SECURITY SUBCOMMITTEE

OF THE

UNITED STATES INTELLIGENCE BOARD

SECURITY COMMITTEE

Minutes of Meeting
Held at CIA Headquarters
Langley, Virginia
12 April 1973

1.   The seventy-first meeting of the Computer Security Sub-
committee of the United States Intelligence Board Security Committee
was held between 0930 and 1220 hours on 12 April 1973 in Room
7E-26 CIA Headquarters Building.   In attendance were:

STAT

Mr. Louis C. Kachulis, State Member

STAT

Major John C. Karp, Army Member
Mr. Carl R. Lambert, Navy Member
Captain Frederick R. Tucker, Air Force Member

STAT

Mr. John H. Skaggs, FBI Member
Mr. James M. Mastrovito, Treasury/USSS Alternate

Mr. James M. Clayton, O/DASD(SP) Observer

STAT

Mr. Frank M. Machak, State Alternate

STAT

Lt. Col. F. L. Lowery, USAF
Captain Barry R. Kokot, USAF

2. The security level of the meeting was Top Secret COMINT.

3. <u>Briefing on the USAF Electronic Systems Division (ESD)
Computer Security Technology Planning Study:</u>   STAT
presented a brief-   STAT
ing on the on-going Computer Security Technology Planning Study which
is designed to provide an acceptable degree of security for computer
operations in the multi-level environment. The initial study of this
problem has been completed and the implementation phase, which is a
$12,000,000 effort scheduled to run through 1976, has begun. During
the briefing it was emphasized that this is a relatively low key effort,
and that $3,000,000 to $4,000,000 of the $12,000,000 will be used to
structure a new processor which will accommodate the features of the
Multrics System.

4. A query by the Chairman concerning coordination efforts
in the U. S. Government regarding this study, prompted the reply that
there are no formal coordination efforts now in effect. As stated above,
this is a low key program with limited funding and very little support
outside of the USAF and NSA.   did, however, reassure   STAT
the Chairman that every effort will be made to keep all interested parties
abreast of the progress of the program.

5. Approval of Minutes: The minutes of the 1 March 1973 Subcommittee meeting (M-70) were approved without change.

6. Proposed Upgrading of COINS Security Level: The Chairman introduced a memorandum to the members of the COINS Network from Major General Lew Allen, Jr., USAF, DCI/IC, dated 9 April 1973, which advised all concerned that preparations should be made to incorporate TK information into the COINS Network by 1 May 1973. This memorandum, in effect, eliminates the need for further discussion on this topic on the part of the Subcommittee. The Chairman pointed out that there is still a question of whether or not the Computer Security Subcommittee should continue working on the preparation of a memorandum in answer to the IHC request to the USIB Security Committee to examine the security implications of incorporating TK into the COINS Network. The Chairman advised that he would seek resolution of this problem at the next USIB Security Committee meeting.
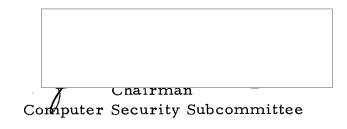

7. Other Business:

UNIVAC's Current Activities in the Computer Security Field: The Air Force member distributed to all members copies of a paper prepared by ▯ STAT

STAT

Washington, D. C., regarding that company's present efforts in the field of electronic data systems security.

8. The next Subcommittee meeting was tentatively scheduled for Friday, 27 April 1973, at CIA Headquarters.
